

7 Great Reasons why Shipping Containers are a Perfect Storage Solution

Shipping container storage solutions have been around decades with great success. Our customers can benefit from great storage at cheaper prices as a result. If you have never considered storing your possessions in shipping containers, here are some great reasons why they are perfect for storage.

1 THEY ARE DESIGNED TO STORE STUFF!

Shipping containers are designed for goods of all shapes and sizes to be stored for months at a time. 90% of the goods in your home have been in a shipping container at some stage for up to 3 months.

2 PROTECTION FROM THE ELEMENTS

Since shipping containers are designed to travel on ships for several months at a time, they are built to protect the cargo from the elements. All of the container doors are sealed, waterproof, dust proof, vermin proof and wind resistant. The doors are fitted with thick rubber seals to make them secure and safe. A very small passive ventilation port located at the top corner of every shipping container allows air to be circulated in all weather conditions.

3 COST EFFECTIVE

Using shipping containers as storage means you are not paying the high cost of renting inside a staffed facility with limited access. Shipping container storage is an average of 30% - 40% cheaper than renting in a conventional indoor storage facility.

4 THEY ARE REALLY SECURE

Shipping containers have a 3-point locking system and an anti-theft lock box making it almost impossible to break in. Our site is always monitored with back-to-base movement sensor alarms and individual door alarms. Your goods are safe with us. Did you know each container weighs over 2000kg and strong and sturdy enough to even withstand cyclonic weather?

5 THEY ARE MASSIVE!

A 20ft container has 33.2 cubic meters of storage. Every container is the standard ceiling height giving you great opportunity to store even the weirdest shaped items or stack many boxes safely on top of one another.

6 EASY ACCESS

Have you ever bought a new fridge or lounge suite only to get it home and realise your doors are smaller than what you thought? Shipping container doors are 2.35m wide making it amazingly simple to get any item inside without a struggle. Many of our customers even use our shipping containers to store their vehicles. At StoreAway Self Storage, we offer a drive up, easy access solution.

7 SHIPPING CONTAINERS OFFER SIMPLE STORAGE

Shipping containers offer a great, cost effective, simple and secure storage solution. On top of that we make the process of moving in and out simple & straightforward with easy storage agreements, various payment options and service that will go the extra mile. We like to ensure that you have a memorable experience whilst you store your most valued possessions with us. If it's not obvious... WE LOVE SHIPPING CONTAINERS! They make great storage. and our customers constantly give us feedback about how convenient they are. Try it for yourself!

DID YOU KNOW?

90% of the goods in your home have been in a shipping container at some point of their life for up to 3 months, so how you store the goods will determine long term storage success.

Secure, Drive-Up Self Storage!
